SUCCESS STORY

▪ Case Study of Ansu Kandeh

Ansu Kandeh is a student from Kabala Secondary School and he is a frequent user of the Rachel content at the static lab, Ansu used to visit the lab every Tuesday and Friday to do research on the Rachel Server and he is currently taking the West Africa Secondary School Certificate Examination. (WASSCE).

See Photo below of **Ansu Kandeh**. Just after his Geography exam.

BRIEF STATEMENT MADE BY ANSU KANDEH at the ILRC

The facilities provided by CAUSE Canada at the Integrated Learning and Resource Centre (ILRC) which is currently helping most students in their academic work.

To me personally the RACHEL has been a solution solver in my academy work, solving my assignments and further researched on my subjects' areas, visiting the ILRC had so far helped me a lot since I started using the RACHEL some years back, through the guidance of Mr. Samuel Momoh and Matthew A. Turay, I have been able to get the syllabus of all my subjects which am currently close in completing them. I normally visit the ILRC on Tuesday and Friday to do research on different subjects and topics from the RACHEL Server.

*I have experienced a lot of positive changes in my life and my academic work, since I started using the RACHEL and due to the increase in my academic performance in school, I was featured to be the senior prefect of my school and I am currently serving in that capacity as **Head Boy**. Also, public speaking happens to be part of our academic work and that was one of the thing I normally make researches on mostly on TED-Talks, in several occasion, I have been featured as the best debater in my school, District and once in regional level.*

My favorite content is the KHAN ACADEMY by Ka-lite followed by GCF learn free .org. Presently I am taking the WASSCE exams and I believe I will make it for I have been doing a lot on the RACHEL before this time, and by the grace of God I will be pursuing Information, Communication and Technology in my university level. Even after taking my exams, I want the ILRC to be open throughout the week so that I and my friends will be able to access its' facilities.

In conclusion, I want to once again thank CAUSE Canada for the good work they are doing, the facilities they are providing at the ILRC and all other things to promote education and special thanks and appreciation to my tutors Mr. Samuel Momoh and Mr. Matthew A. Turay.
