<tbody>
<tr>
<td><strong>1.</strong> Dig two holes 18 in (45 cm) deep and about 2 ft (66cm) apart</td>
<td><strong>2.</strong> Place the forked sticks in the holes and ensure they are level</td>
</tr>
<tr>
<td><strong>3.</strong> Fill holes with soil &amp; rocks, and pack tightly</td>
<td></td>
</tr>
</tbody>
</table>

### Tools to dig

- 2m forked sticks x2
- 1m straight sticks x2

### Oil bottom of sticks to prevent termites

### 4. Heat the nail and make 2 holes in the water container

### 5. Make a hole in the soap and thread string through it

### 6. Hang container & soap and fill with water

### 8. Attach other end to foot lever stick

### 7. Attach string to water container

### 9. Use gravel basin to capture water
